- Dart
- Agile methodology
- UI/UX design
- Software development lifecycle
- Web development
- Testing
- Version control (Git)

Work Experience

2022 - 2024
iyzico | Istanbul
Flutter Engineer

Architected and delivered 12+ high-performance features across iOS and Android, resulting in a 35% increase in user engagement and a 20% boost in transaction volume over 2 years.

- Spearheaded the development and launch of a redesigned checkout flow, reducing cart abandonment by 15% and increasing conversions.
- Led a team of 3 developers to build a new loyalty program feature, resulting in a 10% increase in repeat customers within the first 3 months.
- Implemented robust error handling and performance optimizations, improving app stability by 20% and reducing crashes by 10%.
- Collaborated closely with UI/UX designers to create intuitive and visually appealing interfaces, leading to a 4.7-star rating on the App Store.
- Expert proficiency in Dart, Flutter widgets, BLoC/Provider state management, and RESTful API integrations.

2020 - 2022
MindPal inc. | USA
Flutter Mobile Developer

- Optimized MindPal's flagship mental wellness app, achieving a 4.8-star rating on the App Store and garnering praise for its intuitive design and personalized features.
- Pioneered the integration of cutting-edge technologies like mood tracking and guided meditations, contributing to a 30% increase in user retention within the first 6 months.
- Optimized app performance through rigorous testing and proactive issue resolution, ensuring a seamless and delightful user experience.
- Collaborated cross-functionally with designers, product managers, and backend engineers to create user-centric solutions that met both business objectives and customer needs.

Projects

Blink
🔗 Github   🔗 Project Map

a cutting-edge e-commerce app prioritizing user experience and security. Leveraging Flutter and Dart, I engineered a modern, visually appealing platform that seamlessly integrates secure payment gateways and personalized shopping features.

Stary
🔗 Github   🔗 Project Map

a sleek modern social media app with features combining Instagram homepage and TikTok swipe feature. using Flutter and Dart, I fully engineered a modern, trendy platform that combines the best of short form content and image posting.
